Leonardo Barilaro will be debuting his latest work **BlackShip** at Valletta Campus Theater Saturday 31st August.

BlackShip promises to be an innovative and unique show guided by a fantasy story rooted in historical events. A combination of contemporary music, dance and visual art, BlackShip follows the tale of two soul sisters, raised by a Knight of the Order of St John, that arrive in Malta shortly after the Great Siege.

The story will be brought to life through the use of several elements including Leonardo's signature acoustic piano meshed with synthesisers. It will also feature an electric guitar played by Marino di Nino, accompanied by contemporary fusion dance style led by Thea Cunnigham and dancer Nicolleta Pizzicotti. The show will be aided by the use of carefully-crafted visual illustrations and voiceovers brought to you by Chiara Rovoletto and Paolo Masciadri respectively.

“This new aesthetic is a hybrid of different experiences, bringing on stage a show able to bridge between the past and the future, dreaming with retro-futurism nuances while reflecting on the historical inheritance,” Leonardo said about BlackShip.
